A BIT OF SSL HISTORY: Sea Shipping opened its first United States West Coast office in 1994 in Oakland, California with Frank Rosenberg and Kriss Slate sharing a partner desk. In 1997 Tommy Thongsrisook and Ana Fregoso opened the Los Angeles office in Long Beach, California and Amber Julian joined 6 months later.

Over the next few years, Sea Shipping expanded to Seattle and then Houston. Ana relocated to Houston to manage the office in 2013, and Amber followed in 2015. Both have been instrumental in building that office into one of our best operations and enhancing our oversized cargo services.

As in Los Angeles, the Houston office (photo on page 2) started with just two employees, one in operations and one in sales. Twenty+ years later the sales person is still with us and the office has substantially more personnel. On October 1st, 2023, we moved into a new,

larger office facility with futher room to grow. Thanks to the loyalty and support from our amazing customers, *and* the dedicated and hardworking staff; 2023 has been one of our most successful years to date.
